

# BANK

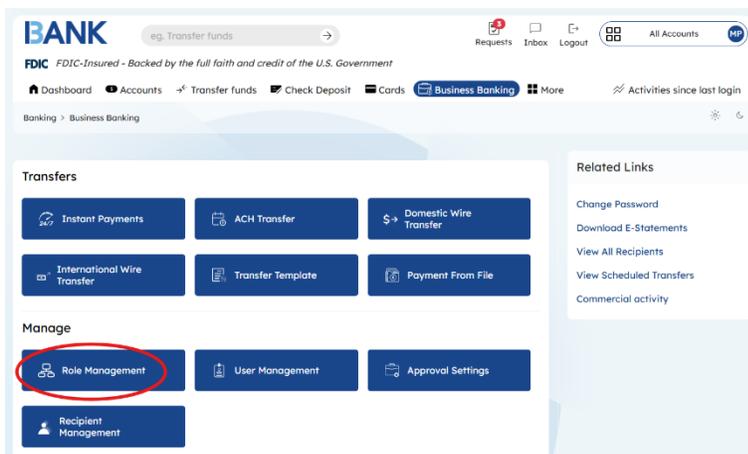

## Can multiple users access a business account with different permission levels?

Yes. Administrators can add users to a business account under different permission levels.

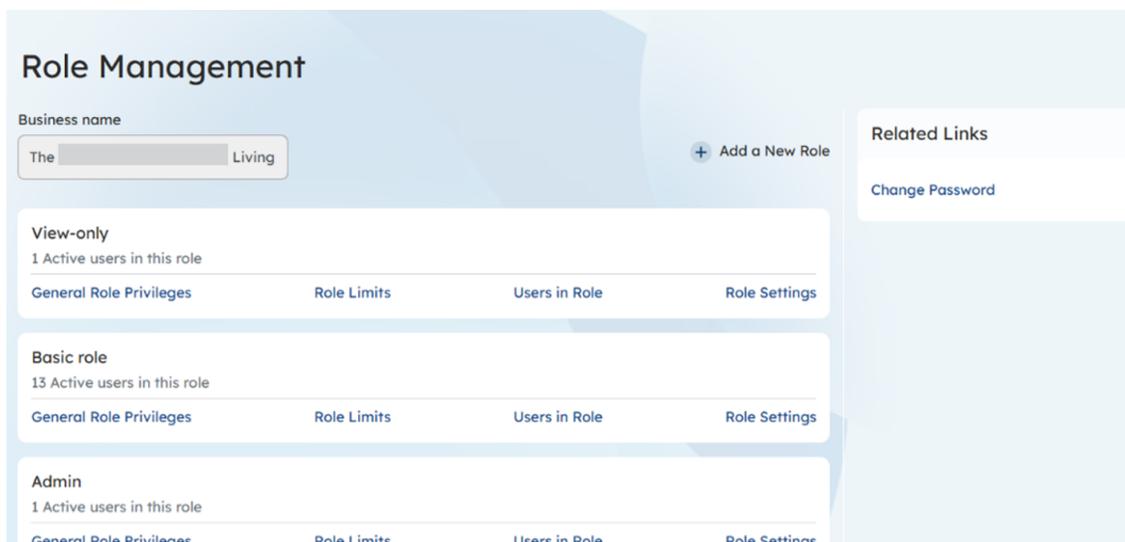

### 1. Click **Business Banking**.

### 2. Click **Role Management**.

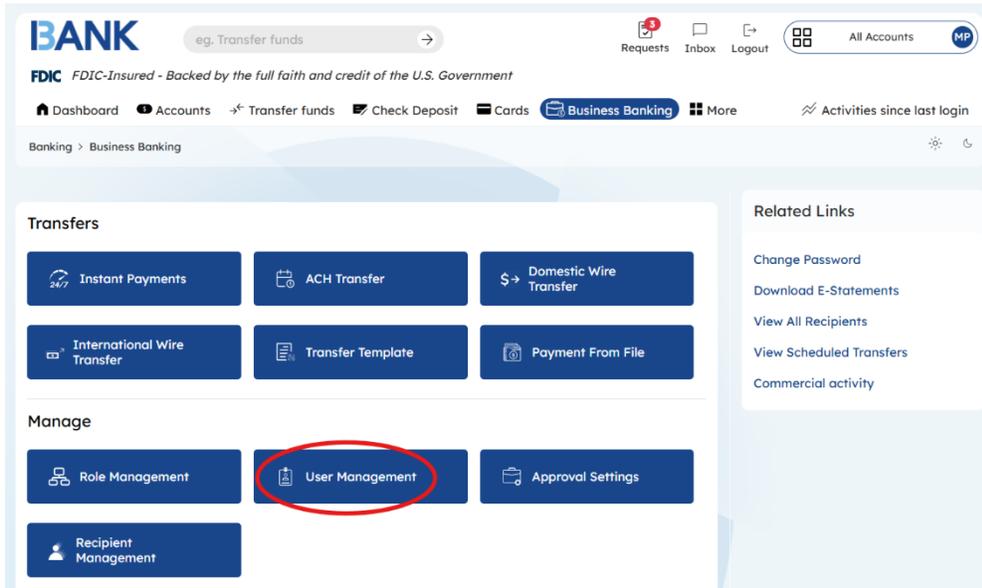

Here you can see role privileges, limits, and users.

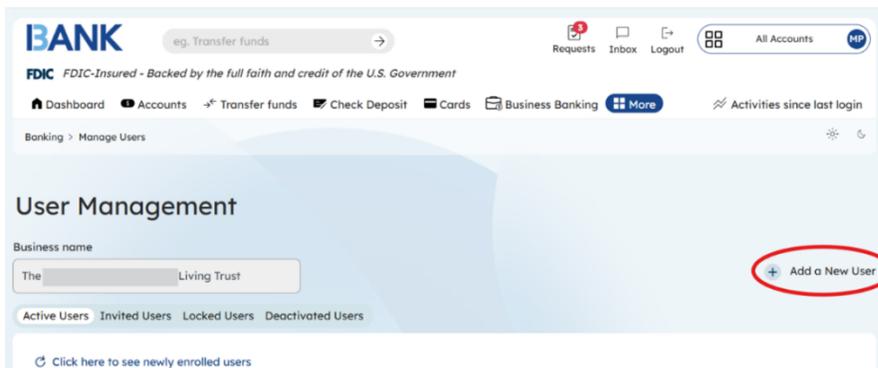

## To add a new user:

### 1. Click **User Management**.

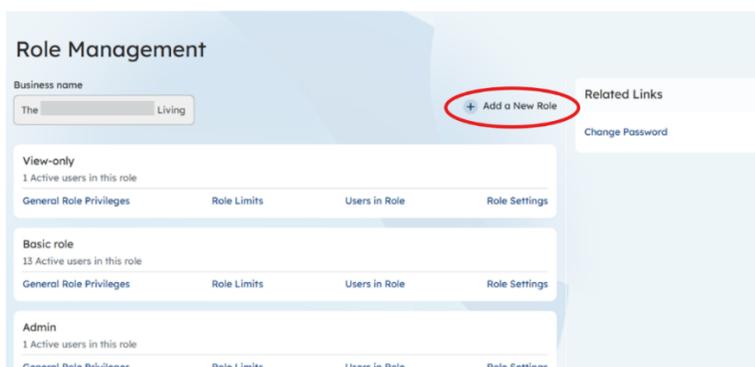

### 2. Click **Add a New User**.

## To add a new role:

*Administrators are not confined to the pre-existing roles. You can create new, custom roles that better fit your needs.*

### 1. Click **Add a New Role**.

2. Fill out the appropriate fields to set the new role's privileges and limits.
