

BANK

How do I enroll in the new online banking platform?

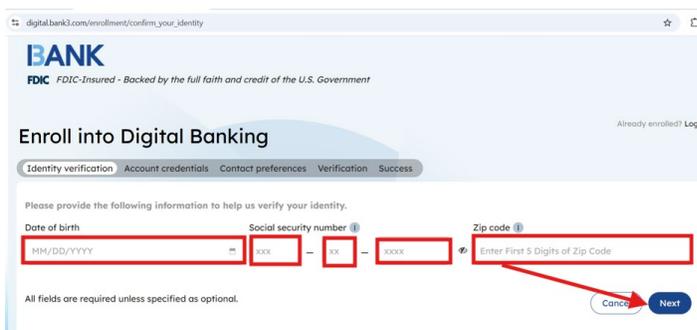

1. You can find the new platform on the Bank3 website homepage (Bank3.com) under **Login**.

2. The first time you access this site you will need to **Enroll**.

3. Follow the steps on the screen to enroll in the new online banking platform. Your username will stay the same. You may choose the same password you used with the old platform or create a new one.

NOTE: If you are a business (commercial) customer, an Owner/Signor of the account MUST enroll first using their personal social security #, DOB, and zip code on file with Bank3. Once enrollment is complete, the owner/signor can navigate to Role Management and User Management and invite employees as sub-users. Sub-users will NEVER have access to the personal accounts of the owner/signor.
